Daksh — 15-Day AI Execution & Automated Testing Grid

100% AI WRITTEN & TESTED

Zero Human Coding • Automated Unit, Integration, Load & Air-Gap Testing

🤖 Antigravity + Claude + Codex | 🇮🇳 Razorpay + 🌍 Paddle | ☸️ Helm Only

🧪 Vitest + k6 + Unity Tests

15-DAY PIPELINE (CODE + AUTOMATED TEST ON EVERY SINGLE DAY)

EXIT CRITERIA: 100% GREEN TEST SUITE ON DAY 15

DAY 01 — Claude

🛠️ Nakama + Postgres Infra

AI writes Docker Compose, Nakama config & DB schema.

🧪 AI Test: Container Health

Automated script tests port 7350, 5432 & schema migration.

Pass: HTTP 200 in <15s

DAY 02 — Codex

🛠️ npx daksh dev CLI

AI writes CLI binary, auto Docker boot & browser launcher.

🧪 AI Test: CLI Subprocess

Vitest runs CLI in child process, asserts browser URL emitted.

Pass: Exit 0, <60s to ready

DAY 03 — Claude

🛠️ Identity & Device Auth

AI writes deviceUniqueIdentifier auth & JWT token issuance.

🧪 AI Test: Auth & Tokens

Automated test verifies token signature, expiry & re-auth.

Pass: 0-Auth failure on reconnect

DAY 04 — Claude

🛠️ Economy V2 V8 Engine

AI writes Nakama TypeScript runtime for currencies & catalogs.

🧪 AI Test: Row-Lock Tests

Postgres FOR UPDATE test asserts zero race condition on balance.

Pass: Accurate wallet balance

DAY 05 — Codex

🛠️ Idempotency Engine

AI writes transaction token tables to block double charges.

🧪 AI Test: Double-Spend

Spams 50 parallel identical requests; asserts 1 success, 49 dedupe.

Pass: 0 Duplicate purchases

DAY 06 — Antigravity

🛠️ AI Command Menu (Cmd+K)

AI writes prompt recipe generator & studio event bus dispatch.

🧪 AI Test: Prompt Parser

Tests 20 prompt variations; verifies valid catalog JSON emitted.

Pass: <1.5s UI table reload

DAY 07 — Claude

🛠️ Razorpay Gateway (India)

AI writes INR orders, UPI subscriptions & webhook listener.

🧪 AI Test: HMAC Crypto

Simulates signature tamper; tests legitimate payment.captured.

Pass: 400 on fake, 200 on valid

DAY 08 — Claude

🛠️ Paddle Gateway (Global)

AI writes Paddle Billing v2 transactions & MoR tax handling.

🧪 AI Test: Paddle Signature

Tests ts + h1 header verification & entitlement state change.

Pass: Title flips to 'pro'

DAY 09 — Antigravity

🛠️ Geo-IP Billing Router

AI writes Next.js checkout router & INR vs USD UI switcher.

🧪 **AI Test: Geo Routing**

Mocks cf-ipcountry='IN' & 'US'; asserts correct gateway selected.

`Pass: 100% correct routing`

DAY 10 — Codex

🛠️ Unity C# UPM SDK

AI writes DakshClient, Auth & Economy C# client classes.

🧪 **AI Test: C# NUnit Suite**

Automated mock tests authenticate, fetch catalog & purchase.

`Pass: All 18 NUnit tests pass`

DAY 11 — Codex

🛠️ Unity Offline Disk Queue

AI writes persistent disk queue for dropped mobile connections.

🧪 **AI Test: Connection Drop**

Mocks network outage; queues requests; asserts auto replay on reconnect.

`Pass: 0 Lost transactions`

DAY 12 — Claude

🛠️ Helm K8s Chart Only

AI writes deploy/helm/daksh with values.yaml & templates.

🧪 **AI Test: Helm Linting**

Automated linter checks syntax, values overrides & dry-run.

`Pass: 0 Lint errors/warnings`

DAY 13 — Claude

🛠️ The Famous Eject Export

AI writes 1-click Helm + isolated PostgreSQL dump packager.

🧪 **AI Test: Export Boots Clean**

Unzips export in isolated sandbox; verifies backend boots standalone.

`Pass: 100% self-hosted run`

DAY 14 — Antigravity

🛠️ Air-Gap & Load Testing

AI executes flight mode test & 5,000 CCU k6 stress scripts.

🧪 **AI Test: 0-WiFi + 5K Stress**

Disables WiFi; runs full test suite; benchmarks <15ms latency.

`Pass: p99 < 20ms, 0 drops`

DAY 15 — All AIs

🚀 Zero-Human Launch

AI compiles Next.js 22/22 routes, tags Git v1.0.0 & releases.

🧪 **AI Test: Master Verification**

Runs all 8 test suites across all components with 0 errors.

Ready for Production

AI AUTOMATED TESTING COVERAGE MATRIX (ZERO HUMAN QA)

8 TESTING LAYERS • 100% AUTOMATED

1. Container Health
Postgres pg_isready & Nakama /healthcheck

2. Concurrency Locks
Row-level locking & race condition tests

3. Idempotency
50 parallel repeat requests deduplicated

4. Webhook Crypto
HMAC-SHA256 signature tampering checks

5. Geo-Routing
IN → Razorpay (UPI) | US → Paddle (MoR)

6. Unity C# NUnit
18 mock client unit tests for UPM SDK

7. Helm Dry-Run
values.yaml linting & standalone export

8. 0-WiFi Air-Gap
Complete game loop runs with WiFi killed
